Alfred Clinton Perry
Vice President Worldwide Content Protection & Outreach

February 2, 2012

Dear Professor 

Over the last few weeks, we at Paramount have been humbled by the strong public opposition to the proposed SOPA and PIPA legislation. The extent of the negative reaction surprised us, and it motivates this letter to you.

We would like to come to The University  to talk with you, your colleagues and your students about these and related issues. We would be happy to give a formal presentation followed by an open discussion period. Alternatively, we would be happy to join for a session of an existing course or seminar.

Either way, our goal would be to exchange ideas about content theft, its challenges and possible ways to address it. We obviously think about these issues deeply on a daily basis. But, as these last few weeks made painfully clear, we still have much to learn. We would love to come to campus and do exactly that.

Can you reach out to me at the above email or phone to talk about possible dates?

Many thanks,

Alfred Clinton Perry
